EXPRESSION OF INTEREST

Engineering Education Transformation Series (Nigeria 2026)

BUILDING HOLISTIC ENGINEERING GRADUATES FOR AFRICA

The **Capacity Building for Engineering Education (CB4EE) Consortium**, through the **Intra-Africa Academic Mobility Programme** funded by the European Commission, invites engineering academics, curriculum leaders, accreditation stakeholders, and postgraduate students to participate in a series of collaborative engagements taking place between **August and October 2026.**

This series aims to bring together engineering educators and professional bodies to explore emerging trends in engineering education, curriculum innovation, sustainability, and accreditation, while strengthening collaboration across African institutions.

PROGRAMME OVERVIEW

20 AUGUST 2026 | ONLINE WEBINAR

Curriculum Innovation for Holistic Engineering Graduate Development

This webinar explores how engineering programmes can develop graduates with the technical, professional, and societal competencies required for contemporary engineering practice. Drawing on experiences from South Africa's Innovative Engineering Curriculum (IEC) initiative, participants will explore approaches to curriculum innovation while aligning with Washington Accord graduate attributes and accreditation requirements.

SEPTEMBER 2026 | ONLINE WEBINAR

Sustainability, Engineering Education, and the Future of the Profession

Facilitated by colleagues from KTH Royal Institute of Technology (Sweden), this session will explore the growing importance of sustainability within engineering education and the role of engineering educators in preparing graduates to respond to complex global and societal challenges.

WHO SHOULD ATTEND?

The programme is designed for:

- Undergraduate students
- Engineering academics
- Heads of Department and Programme Coordinators
- Curriculum developers
- Engineering education researchers
- Accreditation and quality assurance representatives
- Engineering postgraduate students
- Institutional leaders with responsibility for teaching and learning

NIGERIA ENGAGEMENT WEEK

12 OCTOBER 2026

International Week Panel Session on Engineering Education

A collaborative panel discussion exploring current opportunities, challenges, and future directions for engineering education in Africa.

13 OCTOBER 2026

Engineering Student Engagement

An interactive on-campus session designed to engage engineering students in conversations around the future of the profession, graduate competencies, and emerging opportunities.

14–16 OCTOBER 2026

Engineering Faculty Workshop Series

A collaborative workshop series supporting engineering academics in translating graduate competencies and accreditation requirements into curriculum design, teaching, learning, and assessment practices.

17 OCTOBER 2026

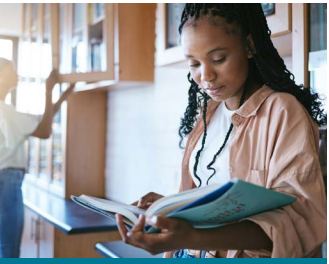

Accreditation and Leadership Dialogue

A strategic engagement bringing together accreditation representatives, engineering deans, and institutional leaders to discuss quality assurance, curriculum transformation, and future collaboration.

EXPRESSION OF INTEREST

Further programme details, registration information, and workshop agendas will be shared with participants who register their interest.

We invite all interested colleagues to complete the Expression of Interest form to receive updates and secure a place in the forthcoming engagements. **CLICK HERE**
